

THE AMENDMENTS

In the Claims:

1 (currently amended)

A liquid crystal display comprising microcups as display cells which are:

- a) formed from a microcup composition comprising a thermoplastic thermoplastics, a thermoset or a precursor thereof and a first liquid crystals crystal composition;
and
- b) filled with a second liquid crystal composition.

2 (currently amended)

The liquid crystal display composition of Claim 1 wherein said microcup composition
which is an embossable composition.

3 (currently amended)

The liquid crystal display composition of Claim 1 wherein the liquid crystal in the first
liquid crystal composition has a concentration no greater than its solubility limit in the microcup
composition.

4 (currently amended)

The liquid crystal display composition of Claim 1 wherein said thermoplastic, thermoset
or precursor thereof is a multifunctional acrylate or methacrylate, vinyl ether, epoxide or an
oligomer or polymer thereof.

5 (currently amended)

A liquid crystal display comprising microcups as display cells which are:

- a) formed from a microcup composition comprising a thermoplasticthermoplastics, a thermoset or a precursor thereof and a speed enhancing comonomer or oligomer;
- b) filled with a liquid crystal composition; and
- c) sealed with a sealing layer.

6 (currently amended)

The liquid crystal display eomposition of Claim 5 wherein said microcup composition which is an embossable composition.

7 (currently amended)

The liquid crystal display eomposition of Claim 5 wherein said speed enhancing comonomer or oligomer comprises a poly(ethylene glycol) or poly(propylene glycol) moiety.

8 (currently amended)

The liquid crystal display eomposition of Claim 7 wherein said poly(ethylene glycol) or poly(propylene glycol) moiety is poly(ethylene glycol) monoacrylate, poly(ethylene glycol) monomethacrylate, poly(ethylene glycol) diacrylate, poly(ethylene glycol) dimethacrylate, poly(propylene glycol) monoacrylate, poly(propylene glycol) monomethacrylate, poly(propylene glycol) diacrylate or poly(propylene glycol) dimethacrylate.

9 (currently amended)

The liquid crystal display eomposition of Claim 5 wherein said thermoplastic, thermoset or precursor thereof is a multifunctional acrylate or methacrylate, vinyl ether, epoxide or an oligomer or polymer thereof.

10 (original) A liquid crystal display comprising two or more layers of microcups microcup array wherein said microcups are formed from a microcup composition comprising a thermoplasticthermoplastics, a thermoset or a precursor thereof and liquid crystals.

11 (original) The liquid crystal display of Claim 10 wherein the liquid crystal has a concentration no greater than its solubility limit in the microcup composition.

12 (previously presented)

The liquid crystal display of Claim 10 wherein said thermoplastic, thermoset or precursor thereof is a multifunctional acrylate or methacrylate, vinyl ether, epoxide or an oligomer or polymer thereof.

13 (currently amended)

The liquid crystal display of Claim 10 wherein said two or more layers of microcups microcup array are arranged in a staggered manner.

14 (currently amended)

A liquid crystal display comprising two or more layers of microcups microcup array wherein said microcups are formed from a microcup composition comprising a thermoplastic thermoplastics, a thermoset or a precursor thereof and a speed enhancing comonomer or oligomer.

15 (original) The liquid crystal display of Claim 14 wherein said speed enhancing comonomer or oligomer comprises a poly(ethylene glycol) or poly(propylene glycol) moiety.

16 (original) The liquid crystal display of Claim 15 wherein said poly(ethylene glycol) or poly(propylene glycol) moiety is poly(ethylene glycol) monoacrylate, poly(ethylene glycol) monomethacrylate, poly(ethylene glycol) diacrylate, poly(ethylene glycol) dimethacrylate, poly(propylene glycol) monoacrylate, poly(propylene glycol) monomethacrylate, poly(propylene glycol) diacrylate or poly(propylene glycol) dimethacrylate.

17 (previously presented)

The liquid crystal display of Claim 14 wherein said thermoplastic, thermoset or precursor thereof is a multifunctional acrylate or methacrylate, vinyl ether, epoxide or an oligomer or polymer thereof.

18 (currently amended)

The liquid crystal display of Claim 14 wherein said two or more layers of microcups ~~microcup array~~ are arranged in a staggered manner.

19-49 (canceled)

50 (new)

The liquid crystal display of Claim 10 wherein said two or more layers of microcups are sandwiched between two conductor films.

51 (new)

The liquid crystal display of Claim 14 wherein said two or more layers of microcups are sandwiched between two conductor films.
